TOURISTS AND CAMPEERS
DIRECTIONS TO
AND
NATIONAL FOREST
SUSLAW
MAP

REMEMBER
The National Forests are the great recreation grounds of the Nation. They also contain immense amounts of valuable timber needed for the development of the country.
Damage to the Forests means loss to you as well as to thousands of others.
BE CAREFUL WITH FIRE
DON'T POLLUTE THE STREAMS
LEAVE YOUR CAMP SITE CLEAN
The National Forests belong to the people. Don't impair the value of your own property by damaging it. This folder tells you about the recreation features of the Suslaw National Forest. The map shows you the roads, trails, and other things you want to know.

TO THE PUBLIC.

The Suslaw National Forest contains a gross area of 821,000 acres, extending for 150 miles along the coast and east to the summit of the Coast Range. The Forest includes a part of the watersheds of the Nestogga, Salmon, Siletz, Abeya, Yachats, Suslaw, and Umpqua Rivers. Besides these, many large creeks drain directly into the ocean.

Its location is ideal in that it affords to vacationists both the enjoyment of the beach and the pleasures of the woods and mountains. Numerous beach resorts occur along the coast at which good accommodations can be obtained. From these resorts are roads and trails leading back into the Forest. The many settlements make it easy to secure supplies and outfits for these trips.

The entire area was burned over about 55 years ago, and at the present time all but a small portion is covered with a stand of second growth, estimated to be two billion feet of merchantable timber. This timber not only has a present value to the numerous settlements within and adjoining the Forest, but also a much greater future value as the region becomes more developed through increased transportation facilities.

If fire can be kept out of this timber it will mean increased wealth to the community and increased industries. Twenty-five per cent of the gross income from timber sales and other revenues from the Forest is used for schools and roads in the counties in which the Forest lies, and an additional 10 per cent is used for roads inside the Forest.

Each individual using the Forest as a recreation ground can assist directly in this development by being careful with fire, and by reporting to the local Forest officer fires which come under his observation, or better still, by extinguishing them if possible.

Commercial and government built telephone lines exist throughout the Forest making it a simple matter to notify the nearest Forest officer in case of fire. These lines are open to the public in case of sickness, accident, or other emergency. District rangers are located at Hebo, Waldport, Florence, and Gardiner, Oregon.

Large fires start from small ones, so be careful with camp fires. Do not build a fire against a rotten log, as, although apparently extinguished, it will sometimes smoulder for days, finally breaking out and spreading devastation. A burning cigarette or cigar stub, or a lighted match carelessly tossed beside the road or trail, may cause a serious fire resulting in the loss of thousands of dollars' worth of property and imperiling lives.

Public camping grounds have been established, and on using these always leave them in a clean and sanitary condition for the next party. It is much better to bury than to burn the debris, as the former method leaves the camp site more slightly in appearance.

Do not pollute the springs or creeks, as there may be others camped below you, and it is contrary to State laws.

There is gooding fishing to be had on all streams within the the Forest above tidewater and in the many lakes bordering the coast. There are some bear and deer, which become more plentiful as one goes back from the coast. In order to increase the amount of

game and to insure a constant and abundant supply, a game preserve has been created by the State, embracing all of T. 16 S., R. 11 W., and the south half of T. 15 S., R. 11 W., Willamette meridian, which is known as the Grass Mountain Game Preserve. No hunting is allowed on this area.

The northern part of the Forest is reached by two routes. The Southern Pacific runs to Tillamook, from Portland, over a route of great scenic beauty. Auto stages connect with the towns and resorts to the south over especially good roads. In this portion of the Forest is located Mt. Hebo, embracing one of the largest fire-burned areas. Thousands of dollars have been expended in reforesting this area, and with the proper cooperation of the individual in preventing fires its commercial value, game value, and aesthetic value will be increased many times. A route over which hundreds of automobiles and wagons travel each summer in entering this region is by road from Willamina. The trip from Portland to the coast by this route can be made in one day by auto.

The lower part of the Forest is reached by either of two railroad routes. The Southern Pacific Railroad and a good auto road from Corvallis connect valley points with Newport, a popular coast resort. From Newport a daily stage runs as far south as Ocean View.

The Willamette Pacific runs into Astoria, 24 miles from Gladys and Florence, making easily accessible a region hitherto reached only by stage and boat. When the road is in operation between Eugene and Coos Bay the following lakes will be accessible by rail: Washita, Tillamook, Talkington, Clear, Ed, North, and Johnson, which are located but a short distance from the ocean beach.

OPEN HUNTING SEASONS—DISTRICT NO. 1.
CONTAINING ALL COUNTIES WEST OF CASCADE MOUNTAINS.

Black deer with horns, August 15 to October 31; Silver gray squirrel, September 1 to October 31; Ducks and geese, October 1 to January 15 (Federal law); Bats and coos, October 1 to January 15 (Federal law); Black-breasted and golden plover, Wilson or jacksnipe, woodcock, and greater and lesser yellow legs, October 1 to December 15 (Federal law); Chinese pheasants and grouse, October 1 to October 31; Jackson County, October 1 to October 10; no open season in Coos, Curry, and Josephine Counties; Quail (no open season except in Coos, Curry, Jackson, and Josephine Counties), October 1 to October 31; Doves, September 1 to October 31.

OPEN HUNTING SEASONS—DISTRICT NO. 2.
CONTAINING ALL COUNTIES EAST OF CASCADE MOUNTAINS.

Black deer with horns, August 15 to October 31; Silver gray squirrel, October 1 to October 31; Ducks and geese, October 1 to January 15; (Federal law); Bats and coos, October 1 to January 15 (Federal law); Black-breasted and golden plover, Wilson or jacksnipe, woodcock, and greater and lesser yellow legs, October 1 to December 15 (Federal law); Chinese pheasants (no open season except in Union County), October 1 to October 10; Grouse, August 15 to October 31; Prairie chickens (no open season except in Sherman, Union, and Wasco Counties), October 1 to October 15; Sage hen, July 15 to August 31; Quail (no open season except in Klamath County), October 1 to October 10; Doves, September 1 to October 31.

BAG LIMITS.

Black deer with horns, 3 during any season; Silver gray squirrel, 5 in any seven consecutive days; Ducks, geese, rails, coos, and shore birds, 30 in any seven consecutive days; Chinese pheasants, 5 in one day, including 1 female, and 10 in any seven consecutive days, including 2 females; Grouse, prairie chickens, and sage hens, 5 in one day and 10 in any seven consecutive days; Quail, 10 in any seven consecutive days; Doves, 10 in one day or 20 in any seven consecutive days; Geese killed in Wasco, Sherman, Gilliam, Harney, Crook, Morrow, and Umatilla Counties may be sold after having metal tag attached.

OPEN ANGLING SEASONS—BOTH DISTRICTS.

Trout and salmon over 6 inches, April 1 to October 31; bag limit 75 fish or 50 pounds in any one day. Trout and salmon over 10 inches, all year; bag limit 50 fish or 50 pounds in one day. Bass, crappies, Williamson's whitefish, catfish, and grayling, all year; bag limit 40 pounds in one day. "Yanks" in Wallawa Lake, all year, except September 15 to October 10; bag limit 50 pounds in one day.

SIX RULES FOR PREVENTION OF FIRES IN THE MOUNTAINS.

1. MATCHES.—Be sure your match is out. Break it in two before you throw it away.

2. TOBACCO.—Throw pipe ashes and cigar or cigarette stumps in the dust of the road and stamp or pinch out the fire before leaving them. Don't throw them into brush, leaves, or needles.

3. MAKING CAMP.—Build a small camp fire. Build it in the open, not against a tree or log or near brush. Scrape away the trash from all around it.

4. LEAVING CAMP.—Never leave a camp fire, even for a short time, without quenching it with water and earth.

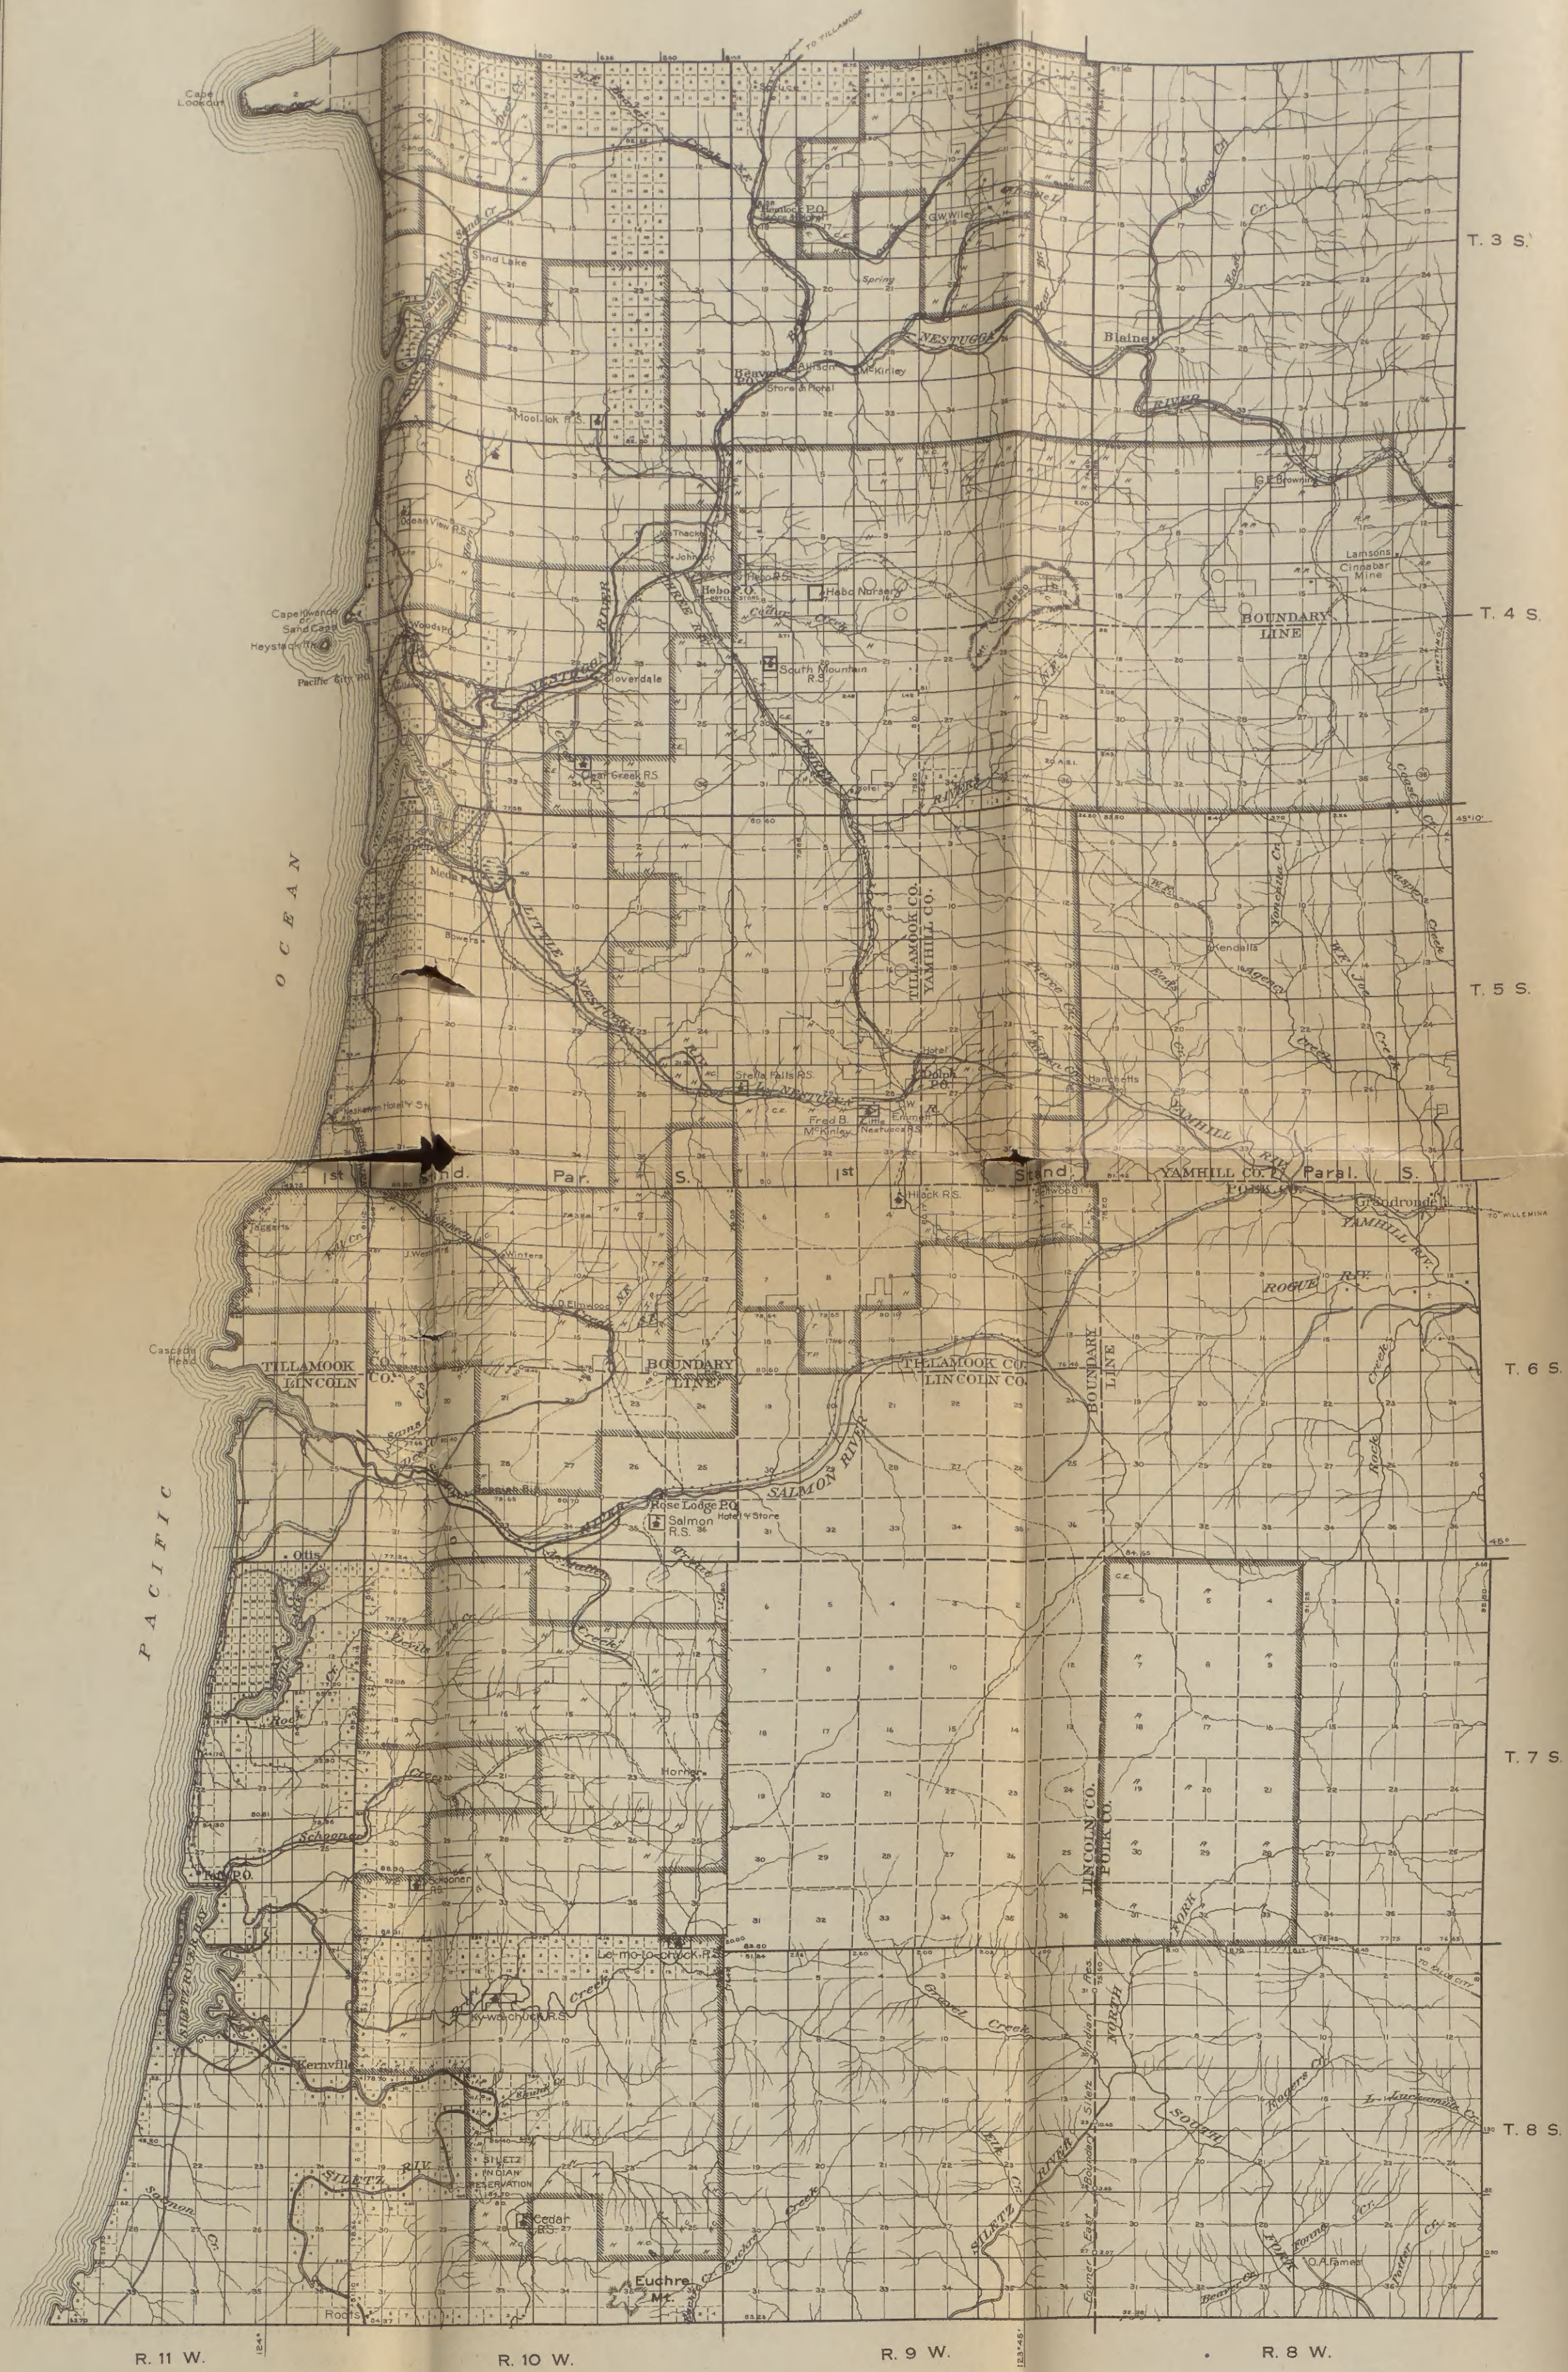

5. BONFIRES.—Never build bonfires in windy weather or where there is the slightest danger of their escaping from control. Don't make them larger than you need.

6. FIGHTING FIRES.—If you find a fire, try to put it out. If you can't, get word of it to the nearest U. S. forest ranger or State fire warden at once. Keep in touch with the rangers.
